## CAREER OBJECTIVE

---

Pre-final year Computer Science and Business Systems (CSBS) student with strong foundation in Java, Spring Boot, RESTful APIs, and MySQL. Seeking an entry-level Java Full Stack Developer role in a service-based organization to contribute backend development and enterprise application skills.

## EDUCATION

---

### Panimalar Engineering College (May 2027)

*B.Tech – Computer Science and Business Systems (CSBS)* | CGPA: 8.5/10

### Mount Saint Joseph Matriculation Higher Secondary School (May 2023)

*Higher Secondary Education (HSE)* | 84.5% (507/600)

## TECHNICAL SKILLS

---

Programming Languages: Java, JavaScript | Web Technologies: HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS | Frameworks: Spring Boot | Database: MySQL | Tools: Git, GitHub, Docker (Basics) | Core Concepts: OOPS, REST APIs, JWT Authentication, RBAC, Transaction Management, Exception Handling

## PROJECTS

---

### *Enterprise Order Management System – Java, Spring Boot, MySQL, Docker*

- Developed RESTful APIs using layered architecture. Implemented JWT authentication and RBAC. Designed relational schema with transactional consistency.

### *Secure Banking Transaction System – Java, Spring Boot, MySQL*

- Built backend services for account management and fund transfers. Applied Spring @Transactional for transaction management. Implemented BCrypt encryption and concurrency handling for data integrity.

## INTERNSHIPS

---

- 1M1B Green Internship (AICTE Supported) – Selected for Workplace Experience (Bengaluru).
- Java Programming Intern* – InternPE (Sep 2025 – Oct 2025).
- Java Developer Intern* – StaxTech (Nov 2025).
- IoT Intern* – Innovate Intern (AICTE).

## CERTIFICATIONS

---

- NPTEL – Database Management Systems
- NPTEL – Computer Networks and Internet Protocol
- NPTEL – Programming in Java
- Internship Certifications – 1M1B, StaxTech, InternPE, Innovate Intern
